

VIVI MAGOO

How do you take an image or idea that captures your imagination all the way to a completed design?

Save The Date!

We held our very first retreat in rural Texas, and the peaceful Prairie setting keeps drawing us back! This year, join us from Monday, October 9th to Friday, October 13th for exciting classes and open studios for every creative spirit.

The class environment will be a creative hive of open discussion and development of ideas, while we pound, hammer, bend, rivet and shape our visions into reality! Mark your calendars; registration opens soon, and with only fourteen students, spots will fill up quickly!

Creativity Takes Courage

In this three day intensive, you will complete an advanced pendant and chain creation. Prior to the first day of class, you will be asked to prepare a simple personal scrapbook of inspirational images, patterns, shapes and designs. These can be photographs, architectural details, elements from classical paintings or sculpture, maps, fonts, textures, fabric swatches, even patterns from the natural world, such as mineral, sea, plant and microscopic forms. Ideas from these images will inform your final piece as we move step-wise from

conception to construction of the project.

Event Details

All-Inclusive Retreat

Registration and a course catalog will be available soon on [our website](#). The all-inclusive fee covers all meals, class fees, 4 nights of lodging in a semi-private room, happy hours, Open Studio and Vivi Magoo treats and goodies. Kit fee and transportation costs are not included.

Featured Instructor: Anne Mitchell

[Anne Mitchell](#), master of metalwork, will be joining us again to share her passion with our students in this artist-in-residence style retreat. Learn something new every day alongside Anne!

Payment Options:

If you are interested in payment arrangements, please contact [Erin](#) and she can help set you up on a payment plan.
